FEGIME Congress London

Dear Mr. Fraps,

The fact that your entertaining presentation for our business-partners took place weeks ago, will not prevent us from sending this letter with our sincerest thanks for your excellent contribution to our FEGIME Congress on June, 3rd in London.

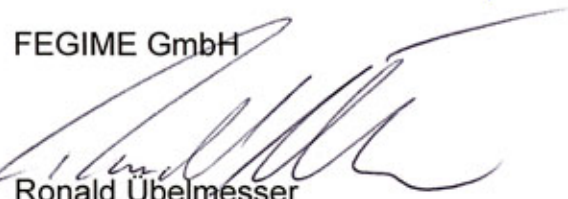

The concept of your fake expert talk was a complete success with our guests, as they were totally taken by surprise. In the beginning you came across as an absolutely dry and boring expert on the topic of „corporate-wide intranet implementation“ and your increasingly irritating PowerPoint presentation led to a very entertaining and baffling performance of yours, spiced up with some clever humor that was even theme-related to our company!

This gave our business-partners some memorable moments they won't forget for a long time! Indeed many of them already let us know that your presentation was one of the highlights of our congress!

We are sure you will have the opportunity to baffle and entertain many more audiences in the future and would not hesitate to recommend your unique services to other clients.

With kind regards,

FEGIME GmbH

Ronald Übelmesser
